### PRINCIPLES OF EASTERN/WESTERN ALTERNATIVE MEDICINE

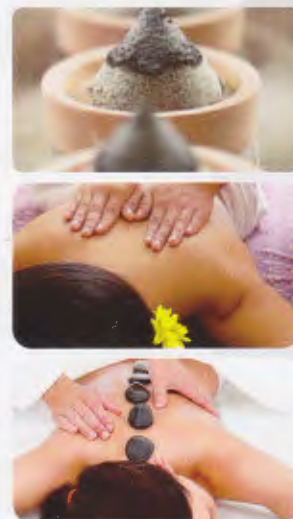

**Moxibustion** | Moxibustion is the application of heat to stimulate pressure points and increase blood circulation in order to promote the body's ability to heal itself and provide relaxation.

**Finger Pressure** | Finger Pressure is a practice done by the hand to relieve compressed nerves and muscle tension.

**Massage** | One of the oldest forms of therapy known to relieve pain, relax the body, and simulate blood circulation.

**Chiropractic** | Chiropractic is a leading alternative medicine with over 100 years of history that help align the spine and relieve compressed nerves, thus promoting an overall, healthier body.

**Thermal Therapy** | Thermo Therapy applies radiant far infrared heat to relieve aches and pain and helps improve blood circulation.

### KEY FUNCTION OF CERAGEM AUTOMATIC THERMAL MASSAGER

#### CERAGEM Pressure | APPLICATION OF MOXIBUSTION AND FINGER PRESSURE PRINCIPLES

A unique technique that synthesizes the benefits of the Moxibustion effect and Finger Pressure effect. The internal projector emits radiant far infrared heat, providing the moxibustion effect.

#### CERAGEM Massage | APPLICATION OF MASSAGE AND CHIROPRACTIC PRINCIPLES

The internal projectors massage the back, relieving muscle pain and soothing tension and stress caused by bad posture and an unhealthy lifestyle. By minimizing your stress and tension, your body will experience improvement in overall health.

#### CERAGEM Warmth | APPLICATION OF THERMOTHERAPY PRINCIPLES

The CERAGEM Thermal Massager utilizes the internal projector ( located in the main mat) along with a special heat-conducting Epoxy Carbon Panel to apply a complete thermo-therapy effect to your body.
